

The Ultimate Patient's Guide to **INVISALIGN**

THE CLEAR, NON-EMBARRASSING TEETH-STRAIGHTENING SOLUTION.

WHAT DO YOU LIKE ABOUT YOURSELF?

82% of American adults agree that the first thing they notice about others is not muscle size nor makeup—but their smile.

Give them a run for their buck and make it a good one!

Invisalign uses a series of 3D computer-generated transparent plastic aligners custom-made to gradually and gently mold your smile.

FOR WHO?

It's the perfect solution for people with **ALL TYPES OF TEETH**

OVERLY CROWDED TEETH

GAPPED OR CROOKED TEETH

UNDERBITES, OVERBITES, OR CROSSBITES

Which category is your smile in?

HOW DOES IT WORK?

Aligners are changed every 2 weeks.

Average treatment usually takes 1 year (18-36 aligners) with ideal patient cooperation.

Invisalign must be worn at least 20 hours per day for optimal results.

Average cost is around \$5000, same as traditional metal-braces.

VS.

INVISALIGN

TRADITIONAL BRACES

Removable	Permanent until orthodontist says so
Easy to clean	No popcorn, gum, candies, chips
Virtually invisible	Hiding your smile doesn't count
Eat whatever you want	Mouth-sores and bleeding
Go crazy in all your favorite sports	A nightmare to clean

IT'S ALL DIGITAL, BABY!

Our iTero machine makes Invisalign that much better.

See what your smile will look like before you begin treatment.

Aligners fit and slide perfectly.

No more goopy-impressions.

3D Digital printing!
